PLANTU

Les OVNI & PAN face à la science

POURQUOI CE SUJET ?

- Les astronomes ont le regard tourné vers le ciel plus fréquemment que la plupart des personnes.
- Ils apprennent à reconnaître et identifier les phénomènes météo, aérospatiaux et célestes les plus courants.
- Il peut être traité très sérieusement en se basant sur une approche la plus scientifique et rationnelle possible.
- La récente actualité avec les allégations extraordinaires de David Grusch et son audition devant le Congrès US.

Nous devons nous préparer à des révélations fracassantes sur les ovnis

Ed Simon — Traduit par Rosine Inspektor — Édité par Natacha Zimmermann — 27 juillet 2023 à
20h00

Les soucoupes volantes sont certes présentes dans la culture populaire depuis des décennies, mais ce qui est en train de se passer est inédit.

LES OVNI EXISTENT BEL ET BIEN !

Mais **attention**, un OVNI ou PAN n'est pas du tout synonyme de :

- Soucoupe volante
- Engin extraterrestre

"Je suis d'accord pour dire que les OVNI existent, parce que l'on a quelques cas tout à fait flagrants, mais je ne fais pas le raccourci de dire qu'il s'agit forcément d'extraterrestres. Il y a d'autres hypothèses à creuser."

Jacques PATENET, directeur du GEIPAN (2007)

Page 2

I have received lots of requests from people who told me to make a lot of wild guesses. I have based what I have written here in this article on positive facts and as far as guessing what it was I observed, it is just as much a mystery to me as it is to the rest of the world.

My pilot's license is 333487. I fly a Callair airplane; it is a three-place single engine land ship that is designed and manufactured at Afton, Wyoming as an extremely high performance, high altitude airplane that was made for mountain work. The national certificate of my plane is 33355.

CL. 47, NUMBER 99, ESTABLISHED 1884

ROSWELL, NEW MEXICO, TUESDAY, JULY 8, 1947

5¢ PER COPY

Movies as Usual

Leaves broke and flood waters rolled into the town of Grand Tower, Ill., but while the manager of the movie theater sweeps out the water that has entered the lobby these youngsters are standing in line for tickets for the night's performance. (AP Wirephoto).

Some of Soviet Satellites May Attend Paris Meeting

Paris, July 8 (AP)—Indications received today that at least some of the nations which the Soviet Union would attend the Paris conference on the Marshall plan.

Roswellians Have Differing Opinions On Flying Saucers

Roswell is a hot area about the flying saucer, it would appear from interviews today with a number of local citizens, with about many ideas concerning them as

Europe program, and a dispatch from France stated Communist spokesmen are suggesting Russia herself might try to get back into the act. A Sofia dispatch stated an ambassador here as "strongly" Bulgaria will participate in the conference, which opens in Paris Saturday. The dispatch also stated that the Soviet council of ministers was expected to reach a decision on the matter. Despite a Moscow radio report that Yugoslavia had rejected the British-French invitation to participate, observers in Belgrade said the Yugoslavs still had not replied and probably will not do so before Thursday — the deadline for an

Claims Army Is Stacking Courts Martial

Indiana Senator Lays Protest Before Patterson

Washington, July 8 (AP)—Senator James H. Pritchard today demanded that "the high command in the European theater is stacking courts martial defendants in courts martial."

In a letter to Secretary of War Patterson detailing a full investigation of army military trial procedure, Senator Pritchard stated that the said was documentary proof that:

1. "Prisoners are not being permitted to employ either civilian or military counsel of their own choice in the preparation and presentation of their defense."
2. "Every effort is being made to prevent attorneys who were retained with the defendant's knowledge from appearing in court as counsel for the defendant."

The Indiana senator made public a copy of an internal "topical" which he said was signed by Brig. Gen. Cornelius H. Ryan, assistant deputy, military government headquarters for Germany, and written by Col. Francis H. Vandewater, senior staff sergeant that the routing slip substantiated his charges.

The slip, addressed to the chief of staff, USVET (roughly US forces, European theater), was dated last Oct. 23.

It called attention to the impending arrival of Earl J. Carroll and Thomas Lester Flory, California attorneys, to act as special defense counsel for the prisoners then awaiting trial by military courts martial at Frankfurt Am Main.

Senator Pritchard identified Carroll as counsel in the court martial of Col. James A. Kahan in the Lubbock court-martial proceedings.

Carroll, then, at Pritchard's request, resigned as assistant prosecutor in the Lubbock trial after signing a "deliberate attempt" to secure a "deliberate attempt" was being made by army legal authorities to whitewash higher officers in the case, Kahan was later sentenced and killed.

RAAF Captures Flying Saucer On Ranch in Roswell Region

House Passes Tax Slash by Large Margin

Defeat Amendment by Demos to Remove Many from Rolls

Washington, July 8 (AP)—The House passed today the Republican-backed bill to cut income taxes by \$4,000,000,000 annually for 4,000,000 taxpayers beginning Jan. 1.

The vote was 302 to 111, or more than the two-thirds majority needed to override a presidential veto.

The bill, which may encourage another presidential veto, came after Speaker Martin Dies, personally appeal to the house to pass the bill by such a decisive vote as to preclude the possibility that the people should have their day in court.

The measure is identical with one passed by President Truman June 18 as "the wrong kind of a reduction at the wrong time" — a charge that the effective date is changed from July 1, 1947 to Jan. 1, 1948.

Congress leaders expect to have the bill passed by the end of the week.

The house passed the bill after the Republican-led party proposed a Democratic substitute that would have reduced taxes by \$2,750,000,000 and removed 4,000,000 taxpayers from the tax rolls completely.

Security Council Paves Way to Talks On Arms Reductions

Late Supreme, July 8 (AP)—The United Nations security council today approved an American proposal for arms reduction discussions despite a Russian warning that the plan would bring about a collapse of arms reduction efforts.

The vote was 9 to 0, with Russian and Poland abstaining.

In view of Russia's firm stand against the U. S. plan it had been believed she might block the plan.

Secretary of State Acheson said the United Nations security council in a new effort to revive the Soviet warlike plan which already had been rejected by the commission for super-arms.

The challenge was taken up promptly by French delegate Alexandre Parodi and U. S. Representative Hiram V. Johnson, who announced their opposition to any substitute for the American plan.

Crombie insisted that no program for arms reduction could succeed unless the plan was linked directly with an absolute prohibition of atomic weapons.

He declared that the U. S. plan approved by the commission did not link the prohibition of atomic weapons and the halting of atomic weapons.

Johnson stated debate on the arms question as dangerous and another major declaration from him later in the day in reply to United States and British demands for action to reduce arms in the world.

Declaring that they were approaching perhaps the greatest moment in U. S. history, Johnson said the U. S. plan was not a plan for the "world" but a plan for the "free world" including a series of "broad international" agreements. The Soviet proposal, he said, offered specific details which should be dealt with, such as the

No Details of Flying Disk Are Revealed

Roswell Hardware Man and Wife Report Disk Seen

The intelligence office of the Sixth Army Air Force announced today that the disk had come into possession of a flying saucer.

According to information received by the department, over authority of Maj. J. A. Marvel, intelligence officer, the disk was removed on a ranch in the Roswell vicinity after an unidentified rancher had notified General Crockett Davis, that he had found the instrument on his premises.

Major Marvel and a detail from his department went to the ranch and recovered the disk, it was stated.

After the intelligence office here had inspected the instrument it was flown to "higher headquarters."

The intelligence office stated that no details of the saucer's construction or its appearance had been revealed.

Mrs. and Mrs. Dan Wilent apparently were the only persons in Roswell who have seen what they thought was a flying disk.

They were sitting on their porch at 181 South First, last Wednesday night at about 10:30 when a bright glowing object zoomed out of the sky from the southeast, came in a northwesterly direction at a high rate of speed.

Wilent, called Mrs. Wilent's attention to it and both ran down to look at the object. It was in fact less than a minute, perhaps a few seconds, before it disappeared.

Ex-King Carol Weds Mme. Lupescu

Former King Carol of Romania and Mrs. Elena Lupescu relax aboard the S. S. America bound for Cuba and Mexico in May, 1941. A member of Carol's household in Rio de Janeiro said the ex-king and his companion for 23 years in reign, and exile were recently married at their hotel Copacabana Palace suite. (AP Wirephoto).

Miners and Operators Sign Highest Wage Pact in History

Washington, July 8 (AP)—An agreement averring a nationwide soft coal strike was averted today by John L. Lewis and a majority of the bituminous operators.

In announcing the signing, Lewis told a news conference that it is "reasonable to assume" the entire industry will accept the agreement within a few days.

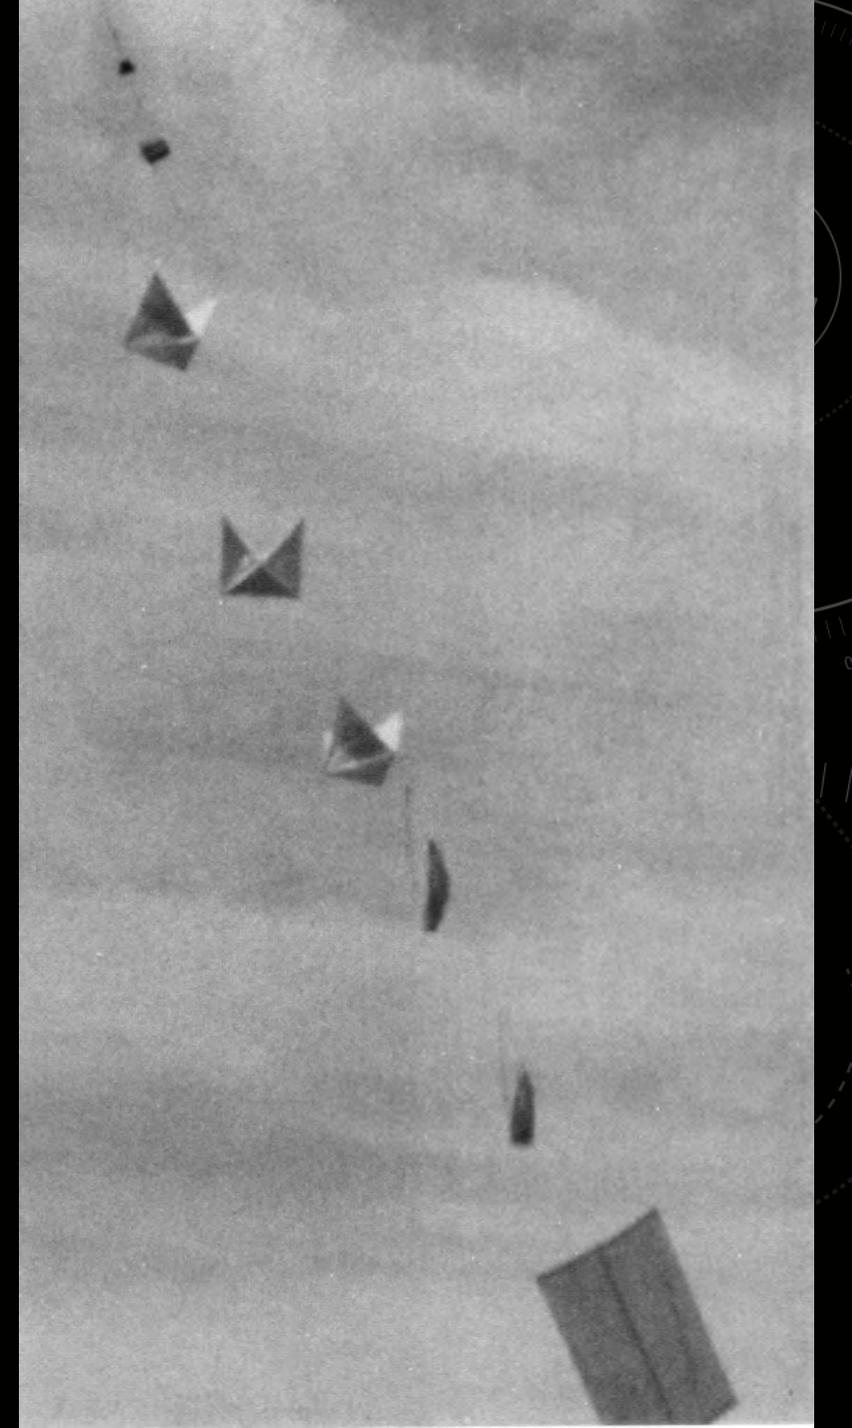

Called a meeting to talk it over first. An official of the UMW said a miners union drafted a preliminary agreement to report the work at it agreed by the operators who signed the agreement. The men have been on a 10-day strike, which ended last night. Lewis had told them to await a formal signing of the contract before going back to the job.

Hole in chimney
for easy lighting.

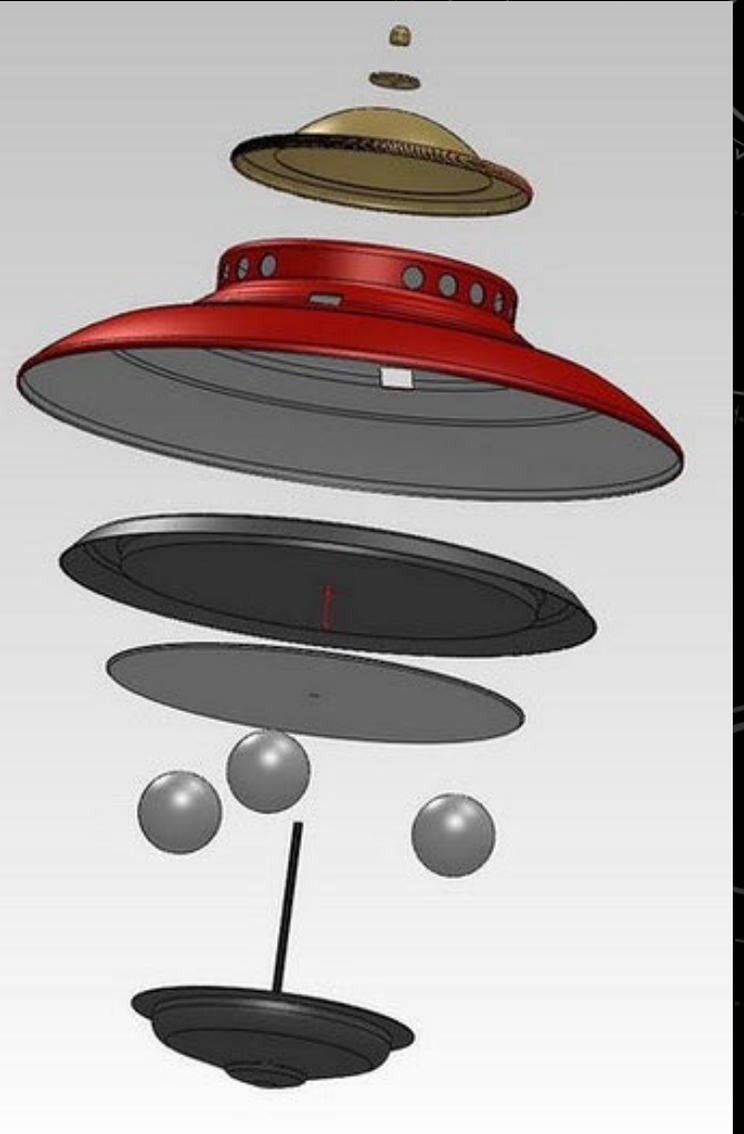

WINDPROOF! BUGPROOF!

- Heat-resisting 1-pc. glass chimney. No overlaps to cause shadows or interrupt light.
- Built-in pump. • Bakelite valve handles.

Convenient and economical because the fully automatic tip cleaner, an exclusive Sears feature, prolongs life of generator, eliminating nuisance and reducing the usual cost of frequent replacement.

Beautiful enough to use as a table lamp. Lights instantly without preheating generator. Cannot be blown out. Shade can be tilted same as horizontal reflector. Broad, red canopy, white underneath, reflects bright, soft light. Black enameled tank, holds 1 1/4 qts., enough for 15 hrs. Ideal for hen houses, dairy barns, road stands, picnics—wherever light is needed. Shpg. wt., 8 lbs. 12 oz.

6 H 7427—Complete with 2 mantles.....\$5.98

COMMENT INVESTIGUE-T-ON LES OBSERVATIONS DE PAN AUJOURD'HUI ?

Les enquêteurs de terrain suivent une formation complète et sont souvent en possession d'un bagage professionnel dans différents domaines : physique, chimie, aéronautique, astronautique, astronomie, photo ou vidéo.

Ils ont accès à des interlocuteurs privilégiés au sein :

- de la Direction Générale de l'Aviation Civile,
- du Centre National d'Études Spatiales,
- de l'Office National d'Études et de Recherches Aérospatiales,
- des labos spécialisés du CNRS (étude de la foudre, etc.),
- des observatoires professionnels,
- de la gendarmerie nationale.

A murder scene in a grand, ornate room. A man in a dark suit lies on a patterned rug, surrounded by blood. A brown briefcase lies on the floor near his head. Several people stand around the room, looking on. From left to right: a man in a grey coat holding a hat, a man in a dark uniform with a helmet, a woman in a pink top and hat, a man in a tuxedo, a woman in a dark dress and white apron holding a large brass instrument, and a person in a black bear costume. The room features a chandelier, a mounted animal head, a large painting, and a table with a vase of pink flowers in the foreground.

LES NUITS des étoiles

août
2023

COMMENT UTILISER CETTE CARTE

Éloignez-vous de toute source lumineuse. Laissez vos yeux s'habituer à l'obscurité pendant au moins 15 minutes. Pour lire la carte sans être ébloui, utilisez une lampe rouge. Mettez-vous face au

sud. L'étoile *Antarès* est un repère facile pour s'orienter : elle est pile dans cette direction en début de nuit. Le haut de la carte correspond au zénith, le point situé au-dessus de votre tête.

Carte valable :

le 1^{er} août à 23 h 30

le 15 août à 22 h 30

le 1^{er} septembre à 21 h 30

Ciel&espace

Prolongez l'expérience chez vous
avec nos veillées aux étoiles.

Rendez-vous sur
www.afastronomie.fr/veillees/

Nous allons commencer les observations à l'œil nu dans quelques instants.

Deux consignes très importantes concernant ces observations :

- **N'allumez pas vos smartphones** (ou bien abaissez leur luminosité) **et encore moins leurs éclairages/torches**. Nous allons rester dans l'obscurité jusqu'à minuit. Il faut 30 minutes pour que nos yeux s'habituent complètement à l'obscurité et augmentent leur sensibilité à la vision nocturne. **Il suffit d'une seconde d'exposition à la lumière blanche pour perdre ce bénéfice** et tout recommencer à zéro.
- Si des voitures arrivent ou bien des personnes passent avec des lampes frontales, fermez les yeux ou détournez le regard.

Observation du ciel à l'œil nu : ma collègue Hélène et moi vous allons vous apprendre à vous repérer dans le ciel d'été.

Au programme :

- La Grande Ourse et l'étoile polaire
- Arcturus et la constellation du Bouvier
- La couronne boréale
- La constellation de Cassiopée
- Le triangle d'été et ses constellations (Lyre, Cygne, Aigle)
- La technique d'observation indirecte pour les objets faibles

MERCI DE VOTRE ATTENTION !

Tout au long de la soirée, n'hésitez pas à nous poser vos questions sur l'astronomie, nous tacherons d'y répondre au mieux !
